VINEYARD

South of the Côte de Beaune, Chassagne-Montrachet is famous for its prestigious white wines, for which its mainly brown limestone soil is best suited. The Premiers Crus whites are spread over 70 ha of vineyards, divided into 22 different areas producing about 3,300 hl a year. “Les Chenevottes” is in an ideal location, next to Montrachet Grand Cru.

TASTING

Beautiful golden color with light green glints. Intense and concentrated nose with some delicate notes of yellow flesh fruits on a oak background lightly toasted. Nice richness in the mouth and good lengh in the palate with an impressive dry extract on a vibrant final. Some light lemon notes at the end.
